AMENDMENT UNDER 37 C.F.R. § 1.111

Sir:

In response to the Office Action dated April 17, 2002, Applicant requests the entry of the following amendments and remarks into the subject application:

**IN THE SPECIFICATION:**

Please replace the paragraph beginning at page 3, line 20 with the following rewritten paragraph:

-- Whereby the upper and lower insulators (20, 21) are respectively assembled on upper and lower ends of the yoke (10) by means of the joint edges (207, 217) respectively inserted into the corresponding winding slots (13). As illustrated in detail in Figs. 3 and 4, the joint edges (207, 217) are combined together in the winding slot (13) to form a
